

7.0.

DELAWARE VALLEY FLY FISHERS

3/22/2018-3/20

7.1 The Waiver is to alert the Club member and Guests that there are significant exposures to numerous types of hazards. The sponsoring of a Club function does not alter the members or guests responsibility to be alert – recognize a potential hazards and then make a determination as how to proceed.

7.2 Many activities of the Club bring its Members to remote areas that could involve difficult terrain. The ability to access Emergency Care or any form of care is unknown. The Club does not provide any form of Emergency response beyond that of Good Samaritan. If a Member alerts the Club of a personal or site condition that could become threatening, it will not obligate the Club to have an organized response.

7.3 A partial function of the Club is to stimulate fishing by various fluctuating membership groups. The presence of a Board Member does not constitute a Board Sponsored trip. Sponsored Trips are announced in the Monthly News Letter and serve to bring members and their guests together for functions consistent with the Clubs objectives.

7.4 If a member invites a guest on a Club sponsored trip, the Club Member must alert the appropriate Board Member no later than the day of the event and have the Guest sign a Waiver and give it to the appropriate Board member. Guest refusal to complete a signed wavier will authorize the Board member to request the guest to leave the event. As noted in the By Laws of the Club, any action taken by members or guests will be filed in and heard according to Pennsylvania laws.

7.6 Membership in the Club requires the execution of this waiver when paying dues.
